"The walls prominently display exquisite works of art and lighting. Luxuriously draped windows with imported gold-leaf finials and brackets complete the surround. A classical Palladian-inspired mahogany desk, accompanied by European-crafted Regency-style chairs, set the mood of this opulent study. A magnificent architecturally detailed breakfront houses a collection of personal treasures while the chandelier depicts a winged goddess displaying her gold wreath of victory."

Q WHAT INSPIRED YOU?

A The International treasures of the great palaces, estates, museums and hotels. This room's existing classical proportions and Georgian symmetry of the windows, French doors and niches inspired our design.

Q WHAT IS THE MOST IMPORTANT RULE OF GOOD DESIGN?

A Let experience, talent and sense of style be your direction rather than any simplistic rule book.
